

Fifth grade seats available for the 2021-2022 school year

Is your child entering the fifth grade? It's not too late to join our family of academically excellent and joyful schools.

Why KIPP Texas?

- Dedicated teachers and staff help students explore their interests and their new school
- Step-by-step guidance makes the fifth grade transition easy
- Clubs, sports, and extracurricular activities help students feel at home while entering middle school

Becoming a KIPPster in the 5th grade means your child will begin forming the life-long friendships and essential learning skills necessary to become engaged citizens of their school, communities, and of the world, while they enter middle school. We guide them in learning to think deeply, to write passionately, and to engage thoughtfully with rigorous learning experiences.
