

Kindergarten seats available for the 2021-2022 school year

Start your early education journey with kindergarten with our family of academically excellent and joyful schools.

Why kindergarten?

Children in early childhood education programs...

- Are more likely to graduate high school
- Become higher earners in the workforce
- Are less likely to repeat a grade

Our kindergarten programs focus on helping each child become an engaged student who is eager to learn, willing and able to follow directions, and happily adjusted to group life in the classroom. With a strong emphasis on Foundational Literacy, Conceptual Math, and exposure to STEAM experiences (science, technology, engineering, arts, and math), our goal is for students to love school from the very start.

**Tuition-Free
Public Schools**
