

2023-2024 Classroom Supply List
Lista de Útiles para el año 2023-2024

Please see below for specific materials requested by teachers for various classes. Look for any classes that are on your student's schedule to see what to prepare. While other materials or supplies may be requested by classrooms throughout the year, being prepared to have these items by the 1st day of school will best help set up your student for success.

Consulte a continuación los materiales específicos solicitados por los maestros para varias clases. Busque cualquier clase que esté en el horario de su estudiante para ver qué preparar. Si bien los salones de clase pueden solicitar otros materiales o suministros durante todo el año, estar preparado para tener estos artículos antes del primer día de clases ayudará a preparar a su estudiante para el éxito.
